

TOLLER PORCORUM

BRIDLEWAY 3

A BRIDLEWAY TO WALK OR RIDE!

Standing, facing the A356 at the junction of where BR 2 meets 'Butt Lane' X walk forward a few paces along 'Butt Lane' where on your right you will see a gap in the adjacent field. Walk through this gap towards a blue waymarking arrow and through a small gate, ensuring as you should do on all Rights of Way that the gate is securely shut. Continue to walk diagonally across the field towards its top right hand corner passing by a large tree to your left.

On reaching the top right hand corner you will pass through a hunting gate (waymarked with a blue arrow) into a second field where in the hedge to your right, you will find a gap. Once through the gap bear slightly to your left moving up the hill between scrub and trees reaching a pathway that moves along the top of a steep slope. Aim towards the hedge and woody copse opposite you, where inside which you will find another hunting gate waymarked with a blue arrow. Following the evident pathway through the copse you will enter the fourth field where to your right you can enjoy a spectacular view of Toller Porcorum and beyond! Continue across the field to pass through a gate (waymarked with a blue arrow) and then bear slightly left aiming towards the top right hand corner of this the fifth and final field. Here you will find a gate which leads you out onto the A356 and ends this Bridleway.

This Right of Way follows on from the Bridleway printed in the August Parish News and forms Part 2 of a Circular route for walkers and a route to the A356 for horse riders!
